

PISTOL PETE WEARN & THE WILDWOOD FLOWERS

TECHNICAL RIDER – AUTUMN 2019

Thank you so much for enquiring about booking Pistol Pete Wearn & the Wildwood Flowers.
Below is a list of technical requirements that may be of use in preparing for the show.

By prior arrangement we can provide our own PA & sound for smaller gigs

For larger gigs read on....

STAGE SET UP

INPUT 1	Vocal mic
INPUT 2	Vocal mic
INPUT 3	Vocal mic
INPUT 4	Guitars via XLR preamp
INPUT 5	Contact mic for violin
INPUT 6	Contact mic for autoharp
INPUT 7	Stompbox

Inputs 1-3 – Vocals

- Three good quality vocal mics. Pete & Helena do most of the singing & Olly will join in on a few numbers.

Input 4 – Guitar

- I use two acoustic guitars on stage, I've recently had them fitted with K&K pickups which I am currently running through a Red Eye twin preamp, which runs on phantom power via an XLR cable & also functions as a DI box.

Input 5 & 6 – Contact mics

- The fiddle & autoharp are both amplified with AKG contact mics that connect via XLR and require phantom power.

Input 7 – Stompbox

- This is a wooden box with a mic in it that is connected to the desk via an XLR to provide a percussive sound. I provide an inexpensive Behringer mic, but if you prefer an SM57 will work just as well.
- Whilst I'm aware a lot of sound engineers' first instinct is to only make small EQ adjustments; my experience is that it usually sounds best with the bass pushed to close to its' maximum +15db & the treble & mid pulled out to near their minimum -15db. Lots of compression helps too.

Other requirements

- A supply of drinking water. Either tap or bottled is fine.
- Vegetarian food is always appreciated but not essential. Black coffee is *really* appreciated but not essential.
